

Newsletter for Dissemination – Project Europe's Lens Training Course

18-25 August 2025

2024-3-PL01-KA153-YOU-000268943

Issue: [09/01/2025/ 1]

Introduction

This newsletter provides an update on the dissemination activities carried out in Rakvere State Upper Secondary School, focusing on the practical learning games introduced to teachers and their planned integration into everyday teaching and mentoring practices.

Activity Highlights: Active Learning Games Collection

As part of the project, several active learning games were compiled and formatted into a dedicated file. This collection was shared with schoolteachers to support their use of engaging and interactive methods during mentoring sessions as well as subject lessons.

Teachers who participated (approx. 25 during the last staff meeting) responded with great enthusiasm, noting that these games are easy to apply and can significantly increase student motivation and participation.

Future Accessibility via E-koolikott

To ensure even wider access and long-term use, the collection of games will also be uploaded to the E-koolikott system, making it available to teachers beyond our school community.

<https://e-koolikott.ee/et/oppematerjal/34560-Kaivitavad-tegevused-aktiivsusmangud>

Impact

- Teachers gained a set of ready-to-use activities for mentoring and subject classes.
- Activities sparked enthusiasm and immediate plans for classroom application.
- The file serves as a practical toolkit for active learning, supporting both mentoring and formal lessons.
- Sharing via [E-koolikott](#) will expand the reach and ensure sustainability of project outcomes.

Next Steps

- Regular introduction of selected activities at the beginning of staff meetings.
- Uploading the full collection to E-koolikott for broader dissemination.
- Continued collaboration with partner schools to exchange and implement new interactive methods.
